"LOMAP has been a practice 'partner' of mine since conception. The team provided me with the **tools, framework and confidence** to transform my vision into a reality. They always have their finger on the pulse of the most **innovative technologies and practice management tools and seminars**. I attribute much of my success to the support of LOMAP."

— Sofia Lingos, Esq., *Lingos Law*

"Kelsey & Trask, P.C. consulted with LOMAP shortly after opening in 2008. One of the most helpful results of that collaboration was the **identification and development of a marketing plan** that has brought success and recognition to our firm. The importance of their advice during those formative days cannot be understated."
